

2008 DISC Scholarship Internet Challenge

Special Note: A Group may submit an Internet Scholarship Application. Each member of the group must submit a separate Scholarship Application form with accompanying support materials.

Challenge: Create internet content related to The DISC Mission Statement.

Time: Your application, solution and other supporting documents must be received by **January 15, 2008**

The Scene: The DISC Mission Statement

The mission of DISC is to support the goals of Destination ImagiNation® and its participants through scholarships and community building activities.

Background: We believe in the idea that Internet communications related to creativity and teamwork competitions for children should be an information resource for the global community. These Internet communications should provide a safe place where creative problem solvers of all ages can try out ideas, concepts and thoughts without fear of ridicule. This should be a place where through open communications and shared knowledge, the entire world can be part of the "team" in which the end goal is "...to make the world a better place in which to live."

Materials: Contents must be submitted in a form distributable via the Internet (i.e. free of intellectual property infringements and viewable with a standard browser).

Scoring: You will receive

- A. Points for creativity.
- B. Points for relevancy.
- C. Points for creative problem solving participation.
- D. Points for correct grammar and spelling (you ARE going to college, after all!)

Clarifications: All files and links are case sensitive. We suggest using all lower case when naming your files and do not use spaces (use underline characters _ instead). Your home page must be under 35KB, and your entire site should be under 1 MB if it is to be hosted by DISC. We will point to it from the URL you specify. Please send an email to: stevecr8z@windstream.net listing your contact information and the URL of your entry in the body of the email. Alternately, you can push it via the email by providing a directory, e.g. zip it.
